

Lake Michigan Lakewide Management Plan 2000

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

Lake Michigan Lakewide Management Plan 2000

Brief description of plan:

The LaMP document serves as a guide to continuing processes of collaborative ecosystem management and partnership activities aimed at achieving the LaMP goals and restoring the 14 beneficial impairments outlined in the Great Lakes Water Quality agreement.

Region the plan is located within:

Great Lakes Region

Watershed(s) included within the plan:

L031x , L032x , L033x , L034x , L035x , L036x , L037x , L038x , L039x , L040x , L041x , L042x , L043x , L044x , L045x , L046x , L047x , L048x , L049x , L050x , L051x , L052x , L053x , L054x , L055x , L056x , L057x , L058x , L063x , L064x , L068x

Area plan covers (in square miles):

square miles

Plan scale:

Multi-state

Plan's lead organization(s):

Lake Michigan Technical Committee

Plan's Main Contact Information:

No Information Provided

On-line version of plan:

Date of original plan:

4/2000

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

To restore and protect the integrity of the Lake Michigan ecosystem through collaborative, place-based partnerships.

Plan recommends restoration of specific project sites:

N

Plan includes a discussion of funding sources:

N

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

Federal
State
Port Authorities/Commissions
Tribes

Type(s) of public outreach included during plan development:

Held public workshops, meetings, open house, or scoping meetings
Developed a Web site to inform public and/or seek public input
Distributed brochures or other materials
Formed an advisory group(s)
Was subject to a public comment period

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

N

Plan addresses monitoring/reference sites for project level monitoring by:

N

The plan discusses or coordinates with other restoration plans covering the same geographic area:

Y

Other plan names:

Remedial Action Plans, Great Lakes Fishery Commission and Joint Strategic Plan for the Management of the Great Lakes Fisheries, Great Lakes Binational Toxics Strategy, Great Lakes 5-Year Strategy

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

411 wetlands covering 49,000 hectares were identified along the shores of Lake Michigan in the early 1980's. It has been reported that 50-72% of the coastal wetlands have been lost in sections of Lake Michigan.
